ISLAND LOCALS.

ABOUT TOWN. Messrs. James Campbell and W. Y. Horr, of Lahaina, are in town.

The GAZETTE is indebted to Mr. J. H. Soper for late papers per Claus Spreckels.

The tern W. S. Bowne, which took a mail for the Coast, owing to the rain and bad weather, did not sail until Thursday.

The Honolulu Rifles will escort the Geo. W. DeLong Post No. 45, G. A. R., to Nuuanu Cemetery on Memorial Day. May 30th.

Dr. E. C. Webb attends at the Government Dispensary, from 9 to 11 a. m., to vaccinate all free of charge who present themselves.

The past week has been an unfortunate one for the builders, owing to the almost constant rain prevailing—work in the open air had to be suspended almost entirely.

Col. Spalding, of Kealia, Kauai, sent up five splendid race horses by the James Makee, which arrived on Friday, to participate in the coming June races.

Capt. Perriman, of the bark Planter, kindly furnished the Gazerre will late files of San Francisco papers, for which thanks are tendered for his thoughtfulness. The twenty-seventh International Conven-

tion of the Y. M. C. A. was to meet in San Francisco on the 11th. Mr. T. S. South-worth would represent the Honolulu Y. M. From Captain Bates it is learned that sev-

eral earthquakes have occurred at Pahala, from the 10th to the 17th, varying in severity from heavy to very light. No damage is The Band gve a concert at the Hotel last evening at 7:30 o'clock, in honor of Her Majesty Queen Victoria's birthday. Herr Berger has arranged a fine programme for

his forenoon, at 9 o'clock, there will be a boat race between two crews of the Honolulu Boat and Yacht, Club, in honor of Her Majesty Queen Victoria's birthday. A fine race may be looked for.

On Tuesday afternoon a large shark was seen envorting around the war-ship Kaimi-loa. It is not known whether he was on the lookout for the Grand Admiral or the Chief Engineer. This looks bad.

Chief Justice Judd and the members of the bar returned from Hilo on the Kinau Sunday morning, after holding the May Term of the Third Circuit Court. Quite a large calendar was disposed of.

Mr. J. Tavernier, the artist, is now engaged on a large picture of Halemaumau which, it is expected, will be completed in time to be placed on exhibition during the visit of the masonic fraternity from San Francisco next

Yesterday W. Foster, Clerk of the Supreme Court, took the sworn depositions of two witnesses, who leave to-day for the Coast, in the breach of promise case of Flora Howard St. Clair vs. Walter Marray Gibson, Minister of Foreign Affairs.

A correspondent writes that the Hamakua Mill Company's store at Paquilo was burglarized on the night of the 20th. The contents of the cash drawer and some articles of clothing were carried off. No capture of the thieves is reported.

Capt. Drew, of the brigantine Claus Spreckels, which arrived on Saturday, made the run from San Francisco to this port in twelve days. The Captain has the thanks of the Gazette for a file of late San Francisco

On Wednesday David Manaku, Deputy Postmaster General, received a special "male" in the shape of a young son. The young gentleman is getting along nicely, and seems well pleased with his new serround-

The Blue Ribbon League held its usual meeting on Saturday evening, and notwithstanding the muddy state of the streets, a good attendance was present to listen to the finely selected programme prepared for the

Officer Reynolds, of the Board of Health, has peremptorily ordered Celestials not to throw slops into the streets or public places. He has printed notices, in native and English, posted in all public places, warning them against this filthy practice.

Capt. Bates, of the steamer W. G. Hall, reports fine weather on his last trip to Puna-lun, Hawaii. Capt. Bates says the fires from the Volcano of Kilauea were plainly visible from Punaluu, showing signs of increased activity, principally in the new lake.

On Sunday the "clerk of the weather' treated the public to a change of weatherfrom rain to sunshine. Latterly people had come to the conclusion that the Hilo clerk of the weather was ruling in Honolulu, and was dealing out the raim as if he were as home.

The "Gynberg Ballads" have gone off like hot cakes. Nearly everyone not feeling right until he had a copy in his possession, and then retired to a quiet nook to have a read and a hearty laugh over the subject matter and the "quaint" cuts with which the work is

Heavy rains have fallen the whole of the past week, and the roads are in their usual condition-six inches of mud on the average road, varied by holes of from one and a half to three feet in depth. There will probably be an action or two for broken limbs if some improvements are not made.

To-day is the anniversary of the birth-day of Her Majesty Queen Victoria, Queen of Great Britain and Empress of India, who has attained the age of sixty-eight years, and who has sat on Britain's throne for nearly fifty years, ruling wisely and well-deserving | 21st 76-100 of an inch. ad receiving the good opinions and enco-

A novel way of doing things seems to prevail in Honolulu. Recently Beretania street has been repaired and graded, and almost on the heels of the Road Supervisor comes the water works people with new pipes, and proceed to dig up the road to lay the pipes. This may be an economical way of doing things, but it don't strike the average mind

On Tuesday afternoon, a Chinaman, on the corner of King and Alapai streets, loaded up an old gun with a large charge of small shot and powder for the purpose of shooting birds. Unfortunately for John, the gun went off at the wrong end and the Chinaman was laid out with his thumb nearly torn off and an ugly wound in the wrist and another in the arm. Dr. McGrew attended to his wounds.

The attention of our readers is called to the advertisement of the Chauncy Hall School of Boston, Mass. This is one of the oldest and most favorably known literary institutions of New England, in which some of the most distinguished men in American political and literary history of the present century have graduated. Some of our island boys also take pride in having had their names on

A native on horseback from Koolau was n leading a Chinaman by means of a rope and the man's hands tied, coming down the valley on Tuesday last. The Chinaman was caught stealing chickens, and the native was bringing the prisoner to the Station House, and the latter looked as if he had had a rough deal. Why didn't the native telephone for the new prison van and bring John into town

By the barkentine S. N. Castle, sailing to-day, Mrs. C. T. Hoyt and her sister, Mrs. mplain, leave for the Coast for a short. Mr. C. T. Hoyt, who left here in the tralia for a visit to Rochester, N. Y., to see the "old folks at home," will meet Mrs. vessel, and other frivolities of no interest Hoyt in San Francisco, and they will return whatever to the taxpayers, but which they their Island home. Mr. Sanbarn, for will be gracefully allowed to pay for.

merly of Hawaii, has purchased an interest in Mrs. Hoyt's lodging house, and will manage the business during her absence.

Mrs. Gilliu, an artist, who has been sojourn-ing with her son-in-law, Mr. W. E. Scott, at Wainako, Hilo, returned to Honolulu on Sunday, bringing with her a number of oil paintings, which she will soon place on exhibition here. This lady is well known to many of the residents of this city and the islands, and her paintings have been favora-bly commented on by all. These recent works are excellent, particularly the fruit and flower representations.

Professor Sidney Dickinson, accompanied by Mrs. Dickinson, sailed on the Kinau, Monday, the 16th, on a visit to the volcano, to secure material for a series of letters on the Islands, which he is preparing as regular correspondent of the Boston Journal, Spring-field Republican and other leading Eastern newspapers. Mr. Dickinson returned on Sunday morning, and last evening he com-menced his course of four illustrated lectures on European Art and Travel, under the auspices of the Y. M. C. A.

A thief, who evidently intended to capture a cash prize, made entrance into the rooms of two Chinamen employed by Mr. C. O. Berger, Beretania street. One of the Celestials was known to have \$100 in his room on Monday, but not deeming it secure brought it into town for safe keeping, and it is this which no doubt prompted the nocturnal visit of the thief on Tuesday evening, who is supposed to be a Chinaman. Both rooms were visited between nine and ten o'clock, but the robber, on the entrance of the owners, vanished through the window, and has not since been

Dr. F. L. Miner, who has recently returned to Bonolulu and resumed the practice of medicine, has purchased from Mr. F. P. Hastings, Esq., the fine residence on the corner of Beretania and Union streets, erected for and under the supervision of the late Capt. James Makee. The doctor will, after making some few changes, take up his residence in it-a portion of which will be devoted to his dispensary and consulting rooms. Dr. Miner has been particularly fortunate in securing this centrally located and well built edifice for a residence and the practice of his

If any one wishes to test his powers of endurance, let him make a trip, on foot, to the Government Building by way of Merchant street—starting from the corner of Fort—and he will feel satisfied that there is a good deal of mud and some water to contend with and tax his powers of endurance. If this does not satisfy him, he can adjourn to the Esplanade and enjoy a pure mud bath, which ought to meet all the requirements necessary. The people ought not to complain with all these anvantages placeat their disposal by an imbecile government which looks out carefully for itself, and the public, its master, afterwards afterwards.

The upper end of Fort street has, during the last rainy spell, been in the worst possible plight-the children attending Fort Street School have had to literally wade through seas of mud and slush to and from school besides sitting at their lessons with their feet An effort ought to be made by the Road Supervisor to make a side walk in that direction. The sidewalks below Beretania on Fort street, are also in bad condition and require a liberal supply of black sand or broken coral to put them to rights. There is plenty of the proper kind of material to be had at the various cellars now being excavated for the trouble of carting it away.

Graduating Exercises.

The graduating exercises at Snell's Semi nary, Oakland, Cal., took place recently, and Miss Belle Fuller, daughter of Capt. A. Fuller, was valedictorian of the class of 1887. The exercises took place in the First Congregational Church, Oakland. This young lady's numerous friends in Honolulu will be glad to hear of her successful graduation. Miss Fuller was a former pupil of Mrs. Wallace's Young Ladies' Academy in this city, previous to her going to the Coast to finish her studies.

The Minstrel Boys.

On Saturday evening next, the Honolulu Amateur Minstrel Troupe will make its third appearance before the public. The boys are hard at work practicing for the coming event, and those who put up their money may rest assured they will get the worth of it. The Minstrels, on their last appearance acquitted themselves with great credit, and it is intended that the forthcoming entertainment will be the ne plus ultra of their efforts. A fine programme will be presented on this occasion.

Contradicted.

On Friday, a rumor prevailed on the streets that the Honolulu Rifles were to be disbanded at the order of the King. This report led to a great deal of vigorous talk on the vari-curb-stones, and much wisdom was scattered broadcast—not a little of which was anything but flattering to the supposed author of the order. The old saw—"where there is a great deal of smoke, there is sure to be some fire," does not seem to hold good in this instance, for on Saturday morning the rumor was pronounced in the morning papers to be a canard. There are, however, some who are incredulous, and still believe that the order was really intended to be carried out, but that owing to the threatening aspect of the neather the project is only held in abey-ance—that it will come to the surface soon, Those boys did not swallow the cast-iron oath, lately promulgated.

Meteorological Report.

POR THE WEEK ENDING SUNDAY, MAY 22, 1887. Thermometer, highest—Monday 16, 1 p. m. ... 81° Thermometer, lowest—Wednesday 18, 6 a.m. ... 68° Barometer, highest—Sunday 22, 1 p. m. 30,90 Barometer, lowest—Monday 16, 1 p. m. 30,05 Rain fall 2 76-100 inches, of this 74-100 fell during the night and 2 2-100 during the day-time. The heaviest fall of rain was during

The prevailing wind has been from the sontheast around by way of south to southwest, Saturday afternoon about half-past four the arrested masses of clouds began suddenly to move and twist from the northeast and during the night the wind came down to the surface. The storm began on Sunday the 15th, about 3 p. m., when a filmy mass of clouds banked up in the south and a zephyr from that quarter fanned the water. The possible amount of sunshine has been 92 hours and 25 minutes, the approximate

amount has been 20 hours and 45 minutes. Rain has fallen every day except the 22d. The Weather and the Roads.

On Monday afternoon, the 16th, the rain, which had ceased for a day or two, resumed sway, and has continued almost uninterruptedly since. The result is that the streets are in a deplorable condition with mud and slush, making it almost impossible to travel in any direction, the only alternative being to take a back. The Esplanade, as usual, is in a pitiable plight, and goods that are liable to be damaged by mud and dirty water have to remain to a great extent unhandled until the weather clears off and the mud dries up. The work of loading the foreign vessels which are on the birth for San Francisco progresses slowly in consequence. When the Government intend to do anything and daughter, San Francisco; Mrs. Kate which are on the birth for San Francisco towards improving the Esplanade, making it passable in all kinds weather, it is impossible to say. At present it is one vast sea of mild and water, which is a discredit to the Minister of the Interior. If there was not an ample appropriation made by the Legislature for the repairing of the streets, the Eeplanade, and also for dredging the harbor, the public could readily understand why nothing has been done towards rectifying these crying evils. There is no disguising the fact that an empty treasury stares the Minister in the face, and that the spare cash has here criefly appropriated for other uses. has been quietly appropriated for other use-less purposes, such as foreign missions, junketing parties, fitting out a one-horse war

Audience.

On Tuezday last, at noon, Mr. Taro Ando, Diplomatic Agent and Consul-General for Japan, had an andience before His Majesty. at Iolani Palace, and presented a letter condolence from the Emperor of Japan to His Majesty, on the death of the Princess Like-

Messrs H. Hackfeld & Co.

This old-established and reliable firm has a new advertisement in this issue, detailing a large variety of seasonable goods, just landed ex bark C. R. Bishop, and selected with care for the Island trade. All will do well to give the list a careful perusal, and then send in their orders at once, which will be carefully filled by this firm.

Sugar Shipments.

Large shipments of sugar are being sent to Nebraska via the Canadian Pacific Railroad, at 65 cents per 100 pounds. The distance covered by the Canadian line is 3000 miles, while by the Central Pacific it is only about 1500 miles. The amount sent forward by this shipment is 8000 barrels, shipped by the San Francisco refineries.

High Test Sugars.

Mr. G. T. Renton, manager of the Kukaiau nill, Hamakua, Hawaii, may well feel proud of the following high polarizations in San Francisco of sugars manufactured at his mill in 1887. It will be remembered that all sugars polarizing over 91 per cent. receive an additional % of a cent per pound. Following are the figures: No. 1 sugars polarized—99, 98.7, 99.1, 98.9, 99.3, 99.2, 99.2, 99.2, 99.2, 99.2, 99.4; No. 2 sugars—96.4, 97, 97, 97.2, 96.4, 97.4.; No. 3 sugars—92, 91, 92.4.

Breach of Promise

Papers were filed in the Supreme Court on Saturday in a case of breach of promise of marriage. Flora Howard St. Clair, widow, being plaintiff, and Walter Murray Gibson, defendant. The plaintiff claims that Gibson agreed to marry her, and that a reasonable time having elapsed, the defendant refuses and neglects to carry out his promise. The damages are laid at \$25,000, Mrs. Howard St. Clair has been here for several months, acting as agent for the sale of books for A. L. Bancroft & Co. of San Francisco. Mr. Walter Murray Gibson is Minister of Foreign Affairs of this Kingdom and President of the Boards of Education and Health. The case will come up at the July term.

A Hawaiian Artist.

Master Henry Grube Marchant, who has shown quite a talent for engraving, and has accomplished some very creditable specimen's of work in that line, has lately branched out by furnishing wood cuts to embellish a serial now being published in the native story paper, "Na Hoonanea o ka Manawa" (The Leisure Hour), which will bear favorable comparison with similar work done abroad. Master Grube, with proper training, has all the elements in him for a first class artist.— When Hawaiian youths are sent abroad to be educated at the public expense, why is it that a promising young lad like Grube is left out of the list? A year or two with a first class engraver would enable this young man to make his mark as an artist, and no doubt prove a credit to his country. Grube does not seem to be the kind of boy the Government desires to take notice of—it prefers to send those whose heads are mainly composed of wood.

The Kamehameha Schools.

The Kamehameha School for Boys will open its doors for the admission of pupils in October of the current year. One dormitory 30x64 is now nearly completed, and another of similar dimensions is under way. These dormitories are two-story buildings, having central halls, each building containing twenty-four rooms, 8x12. One of these rooms in each building will be fixted up for a lava-tory. The other rooms are single sleeping apartments, furnished each with iron bed-stead, table and chair. Each room has a small wardrobe, with a row of shelves. The rooms are amply lighted and well-ventilated, and furnish very attractive quarters for

The dining hall, rapidly approaching com-pletion, is a one-story building, 29x81, eigh-teen feet high to the ceiling, and will readily seat about two hundred persons. The build-ing in the rear, for kitchen, store room and

pantry, will be built of stone.

The recitation building will not be erected until all the buildings necessary for immediate use are constructed. In the meanwhile the two wings of the dining hall will be used for class-rooms.

An artesian well, baving an abundant flow, furnishes the school with water. A steam pump forces the water from the well into large tanks, from which it is distributed by pipes to the various buildings.

The course of study contemplates a thorough training in the common English branches, special emphasis being laid on the practical bearing of all studies on the work-shop instruction. The industrial building will include several departments, such as carpentry, printing, tailoring, masonry and blacksmithing. The shop work will be in-structive, rather than productive, and will be under the direction of a competent mechanic.

The school will be in a measure under military organization, and the discipline will encourage self government. The physical development of the pupils will be specially

The school has a commanding site, at a convenient distance from Honolula, and in a very healthful location.

Tuesday evening a meeting of the Masonic fraternity was held at Hawaiian Lodge, No. 21, F. and A. M., to make the necessary arrangements for the entertainment of the Grand Master of the State of California, and other Masons, expected by the Australia May 31st. After discusthe 24 hours ending 6 p. m., on Saturday the sion, a committee was appointed to make all arrangements, raise subscriptions, and all arrangements, raise subscriptions, and appoint sub-committees to carry out the details. The following gentlemen were named as such committee: J. M. Monsarrat, W. M., Chairman; His Excellency George W. Merrill, Hons. A. S. Cleghorn, Wm. G. Irwin, Samuel Parker and J. S. Walker; Major W. H. Cornwall, Police Justice David Dayton, Messrs. John H. Paty, Wm. F. Allen, H. J. Nolte and F. J. Higgins. The prospects for raising the necessary

amount are good, and that many of the leading business bouses will contribute, outside of the fraternity, towards this object. Everything seems to tend toward a grand entertainment, which will be creditable to the Masonic Order here and pleasant to their brethren from California. It was also stated that the King intended to give a grand ball at Iolani Palace and a garden party at Waikiki, in honor of the occasion.

Among those who have secured round-trip

tickets are: J. P. Cooke, San Francisco; Miss L. Alexander, Oakland; Miss Beaver, Oakland; Mrs. George D. Hall, Virginia City; Miss Josie Watkins, Woodland; Mrs. C. A. Wright and daughter, Sacramento; E. J. Croly and wife, Sacramento; Wm. Johnson and wife, Sacramento; E. A. Burr and wife, Sacramento; A. McDonald and wife, San Jose; Tyler Beach, San Jose; S. A. Barker, Henderson, San Francisco; Dr. H. C. Morey, San Jose; S. B. Swift, San Jose; Mrs. J. P. Bancroft, Woodland; Mrs. T. T. Furlong, Sacramento: Louis Schwartz and wife, Santa Sacramento; Louis Schwartz and wife, Santa Cruz; T. J. Crowley and wife, San Rafael; J. E. Penton, wife and daughter, Oakland; Captain James Johnson and lady, Rio Vista; D. Q. Adams, Woodland; B. J. Wood, Woodland; H. S. Sargent, Stockton; Emanuel Lewis, San Francisco; Hon. Dwight Hollister and wife, Sacramento; Grand Master Atkingard, Santa Constant Santa Captain Santa Capta Capta Captain Santa Captain Santa Capta Capta Capta Capta Capta Capta Capta Capta Cap and wife, Sacramento; Grand Master Atkinson and family, Sacramento; E. G. Dodge and wife. Oakland; C. S. Wright and wife, San Francisco; H. A. Powell and family, Oakland; E. R. Hodges and family, Stockton; E. C. Dozier and wife, Rio Vista; D. E. Hayes, Oakland; Miss E. F. Hayes, Oakland; Miss C. D. Havens, Oakland, and J. D. Stephens and grandson, Woodland.

The Mails.

The Australia having to undergo some changes to her shafting, which will necessitate her going into dry dock, may not be able to leave San Francisco on her regular sailing day, Tuesday, May 24. The agents here think it quite likely she may sail on the 25th—so

that she may not positively be looked for be-fore Wednesday, the lat of June.

The next outgoing steamer mail for San Francisco will be dispatched by the Alameda, due here on or about June 3d.

Prof. Van Slyke's Lecture-

This gentleman, whose lecture had been necessarily postponed, will deliver it on Friday evening, May 27th, at Y. M. C. A. Hall. Subject: 'The Chemistry of Life and Death.' The lecturer will illustrate his subject by experiments. From Mr. Van Slyke's well known abilities as a lecturer, a rare treat may be expected, and it is to be hoped a large attendance will greet him on this occasion. The admission will be free.

A Nice Send Off.

On Saturday evening, Rev. and Mrs. J. A. Cruzan were made the recipient of the neat-est kind of a testimonial—a check on the Bank for \$1,250—a slight token of the high estimation of the esteem in which this worthy couple are held. The presentation was made by Mr. W. O. Atwater, and accompanying it was a highly complimentary letter, which was feelingly responded to by letter by the Rev. gentleman and his wife. Mr. and Mrs. Cruzan will leave a void in this community which will not be readily

B. B. S.

The annual meeting of the British Benevolent Society was held at the rooms of the British Club last evening. The Vice Presi-dent, Rev. A. Mackintosh in the chair. The Secretary, Mr. Kennedy read the minutes of last meeting, and the Treasurer, Hon. A. Cleghorn read his report. The receipts for the year have been \$2,506.92; the expenditures \$1.488, leaving a balance on hand of \$1,098.92, of this \$500 is invested. The officers for last year were re-elected unanimously, and a vote of thanks passed to those ladies and gentlemen who had assisted at the entertainment in aid of the funds of the Society.

A Big Blaze in San Francisco

From Captain Perriman of the barkentine Planter, it is learned that an extensive fire broke out at two p. m. on the 10th, before the vessel sailed for Honolulu. The fire commenced at the corner of Folsom and Steuart streets, consuming a boat shop, four saloons, two hay barns, a police station, a restaurant, and other buildings. The fire department was quickly on the spot, and with the assistance of a steam fire tug, soon had the flames under subjection. A large iron ship, lying at one of the wharves was, at one time on fire, but was moved into the stream and the flames subdued. The fire was entirely under control when the Planter left for here.

The Planters' Monthly for May.

This popular magazine made its appearance on the 17th-too late for being noticed last week. The present number is fully up to the average, and contains numerous ar-ticles which cannot fail to interest the planter. The editorials embrace a variety of subjects, which call for careful perusal by the reader. In the correspondence is a lengthy article on ramie machinery by C. C. Coleman; No. 3 on the Chemistry of Plants, by Prof. Van Slyke, appears; Col. Z. S. Spalding of Kealia, Kauai, gives his views on the workings of Young's Automatic Cleaner, in which he points out some objections and makes a few suggestions; the article is quite lengthy. This article is followed by a shorter one, entitled "A Difference of Opinion." "The Improvements in Crushing Sugar" are also set forth in detail, and will prove inter-esting to the sugar planter. "Agricultural Chemistry" is also continued in the present number, giving much useful information. The selections are varied, and all will prove acceptable to the reader.

Y. M. C. A.

On Thursday evening the regular monthly meeting of this body was held at its hall but owing to the stormy weather the attend-

ance was light.

Mr. H. Waterhouse reported on the successful working of the Hawaiian branch. A Blue Ribbon League has also been organized in connection with this branch, with the best results thus far. At the last meeting twenty-one names were enrolled.

Mr. P. C. Jones reported favorably on the temperance movement, remarking that the Blue Ribbon League meetings were producing the best results, and that they were becoming quite popular. He also alluded to the lectures shortly to be delivered by Mr. Sidney Dickinson, under the auspices of the Y. M. C. A., and asked the members to use their influence to make them a success, as a part of the proceeds would go toward the aid of the funds of the Society.

The Treasurer reported a balance of

\$124 86. Secretary Fuller reported a better general attendance at the rooms for the month. The Sunday-School class showed an average at-

tendance of ten.

Five new members were added to the list,

Sydney Dickinson's Lecture-

and the collections realized \$6 85.

Last evening, Mr. Dickinson gave the first of his lectures on European art. The Lectur-er's delivery is clear and distinct and his matter well chosen and of great interest. The hearers were taken to Bruges, the Hague and St. Petersburg. Specimens of the Flemish and Dutch schools were shown, and the characteristics of the various painters dwelt upon. The Legend of St. Ursula, illustrated by Memling's Reliquary proved most inter esting. The Rembrandt series, showed that master at various stages of his career, specially notable being the "Anatomical Lecture," the "Night Watch," the "Polish Portrait," and the "Descent from the Cross." The Lecturer's short description of St. Petersburg was graphic and picturesque. The scene at the Fortress Church, the death of Alexander II., being artistically touched on. The news accompanying the lecture were excel-lent and we are sorry that lack of space pre-vents a more extended notice. The lectures are thoroughly enjoyable and all should avail themselves of so excellent an opportunity of becoming somewhat acquainted with the art treasures of Europe. There has seldom been a more enjoyable mental (treat offered here than by Mr. Dickinson's lectures.
